TEMPLATE FOR: 2¾” x 2¾” Box

Thank you for choosing Labels on the Fly Commerical Printing!

Here are some helpful tips for setting up your print file.

- A “bleed” is required to ensure ink coverage goes to the very edge of the product. Make certain to extend any graphics/art past the “Cut,” to where the black dotted line is shown. Your submitted artwork should be 2¾” x 2¾”.
- Do not place text outside of the “safe printable area” this will ensure that the text will not be cut off.
- Delete the template lines when done, or ensure the artwork covers it completely, please do not submit artwork with this template showing.
- We will review your artwork to ensure that you receive the best quality print.
